Thank you for clarifying this for us Jerry!

One comment - The EPA/DOGGR MOA approved exemption of the oil and gas aquifers in Volumes I, II and III, not just Volumes I and II and Table 2 of the primacy application . EPA's May 2012 memo compared the list of fields, and there are some differences between the two.

I am looking forward to our aquifer exemption discussion tomorrow. We can certainly talk about this as well if we have time.

Sincerely,

Michele

Subject: Shape File in Website

Hello Michele,

I can confirm that the shape file in our website does not include the additional hydrocarbon producing areas identified in Table 2 of our primacy document. This table was a supplement to aquifers identified in Volumes 1 and 2 and listed the fields discovered after December 1973.
